*"The Best commercial juice blend and functional beverage derived from Muscadines, provides 2-4 more antioxidant capacity per serving that its popular competitors!"*

*Alan C. Somersall, Ph.D. & MD*

## Mighty Muscadine® Premium Muscadine Extract

Many nutritional products claim to be extracts when they may be a whole milled seed or skin. Mighty Muscadine works with a team of scientists and doctors to give you a premium Muscadine Extract. We extract the antioxidants out of the seeds and skins (without the use of alcohol), that is 10 times stronger than a milled seed and skin.

Packed with naturally occurring antioxidants such as Resveratrol, Ellagic Acid and OPC's 20 pairs of Chromosomes allow Muscadine grapes to be more resilient than European wine grapes that only have 19 pairs of chromosomes, giving the Muscadine much more genetic abilities.

NPC Corporation is the leader in the Muscadine Grape nutraceutical industry. The company manufactures premium Muscadine Grape based products in compliance with 21 CFR 111, The Current Good Manufacturing Practices in Manufacturing, Packing, Labeling, or Holding Operations for Dietary Supplements.

Serving Size: ½ oz      Servings per Bottle: 64
